Klein Sconce

Shown here with a hand blown white glass rondelle and etched brass ginkgo plate with a custom jasper patina.

About Us

Trella™ is a design and fabrication studio focusing on high end lighting, furniture, and furnishings designed by Trella's™ co-founders Timothy Mellema and Daniel Termini. With collective backgrounds in art, architecture, furniture making, jewelry making and sculpture, Mellema and Termini design and manufacture a curated collection which celebrates materiality, color, texture, and processes specifically related to artisan metalworking all of which requires a commitment to craft and quality.

Each Trella™ product is hand made to order allowing our clients to select from an expansive range of finishes and configurations, including signature finishes unique to Trella™. As a studio, our agile nature allows us to embrace the design challenges of even the most custom projects. Our in house design team is ready to work with our clients at every stage of a project from concept to realization.

Why Work With Us

We understand there is a specific fixture for every unique project. This is why Trella has structured its production method in such a way that allows clients to configure fixtures, finish combinations and layouts specific to their needs without creating any added costs or production time.

Each project has a dedicated project manager who answers project inquiries, aids in configuring your unique fixture, provides individual quotes, schedules production, overseas assembly, and lastly coordinates packing and final delivery to you. This personal customer service combined with encompassing oversight during production means Trella provides you with a hassle free ordering process resulting in a high quality product made specifically for you.

Domestic Production

From part production to final assembly, Trella is committed to keeping every step of our work as a domestic operation. Anything not done within our studio, is kept within a network of local vendors in the NYC Tri-state area. On top of the many benefits of staying local, this also results in our ability to guarantee lead times and provide an assuredness and certainty that is not available with typical imported work.

Made-To-Order

When we design, we design with adaptability in mind from the beginning. All of Trella's components are inventoried in such a way that allows us to assemble our final pieces to meet the unique needs of any project. Not only are the surface finish configurations nearly limitless, but important attributes such as overall height, diameter, and array configuration are completely customizable at time of order. Because of our production style, all this customization is offered while maintaining standard pricing and lead times.

Artisan Makers

At Trella, we take handmade to heart. Handmade is a process in which each individual part, both small or large, is held, considered, and given the time it deserves by our team of talented makers. Our high standard of craft elevates each piece to long lasting heirloom quality.

Form, Function, and Detail

We believe high craft deserves smart design. With sophisticated joinery and precision components, we take great pride in the detailing of our work. At all scales, we guarantee our work will pass the eye test both within the context of your project, and when appreciated up close.

Trade Program:

We at Trella value our relationship with all members of the trade.

If you are an interior designer, architect, or design trade professional, you can register with Trella to receive the benefits of our Trade Account packages. To set up a Trade Account, say hello at info@trellastudio.com

- On-call assistance during installations
- Options to lease or lend on-hand product

Hospitality Partner

- Aggressively marked down quantity pricing
- Rolling payment options to meet your accounts payable practices
- Extended guarantees on all quoted pricing to fit construction schedules

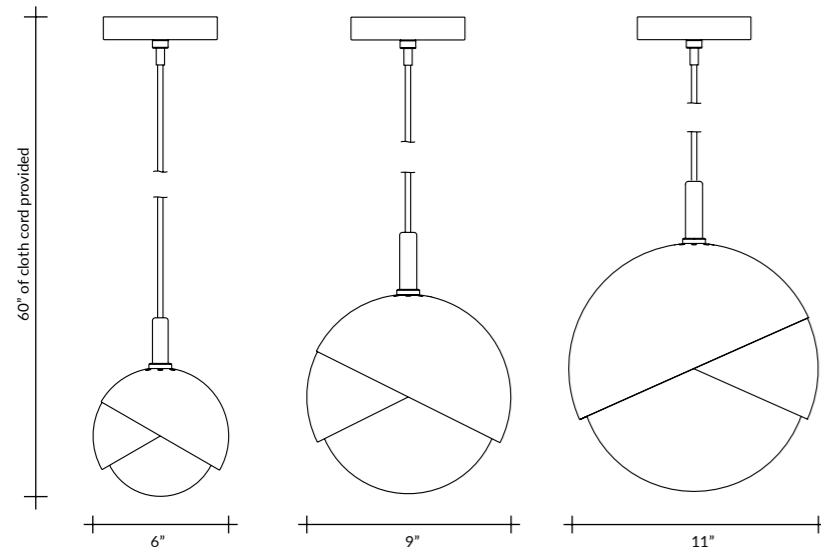

Custom:

Trella and its skilled team of designers and artisans have the ability to highly customize any of our products to fit the needs of your specific project. The process of creating a custom Trella piece begins with a detailed conversation with our design team where scope and vision is thoroughly discussed. What follows might include site visits, material sampling, production of 2D and 3D CADs, approval drawings, renderings or physical mockups. Once a custom design has been approved it then moves to our in house fabrication and finishing workshop where our artisan team brings your vision to life.

Benedict Pendant:

Precious Metals Series

Starting-at retail: \$1,695

The Benedict™ Pendant celebrates the defining detail of the Benedict™ series. Two nested spun brass hemispheres cradle a hand blown glass globe. This fixture lends itself to creative configuration of our many finishes meaning it's sure to be a stunning accent in any space.

Lamping:

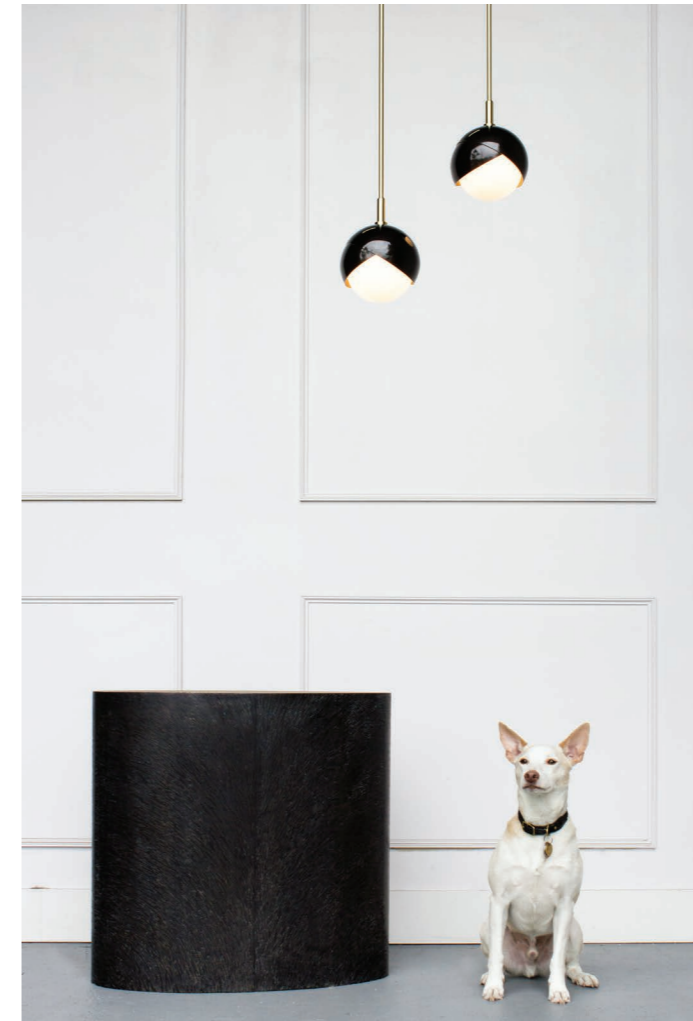

Provided Bulb: (1) 5W Candelabra LED bulb, No transformer required, 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt

Hanging:

Available with 60" of cloth cord or solid metal down stem (cut to order)

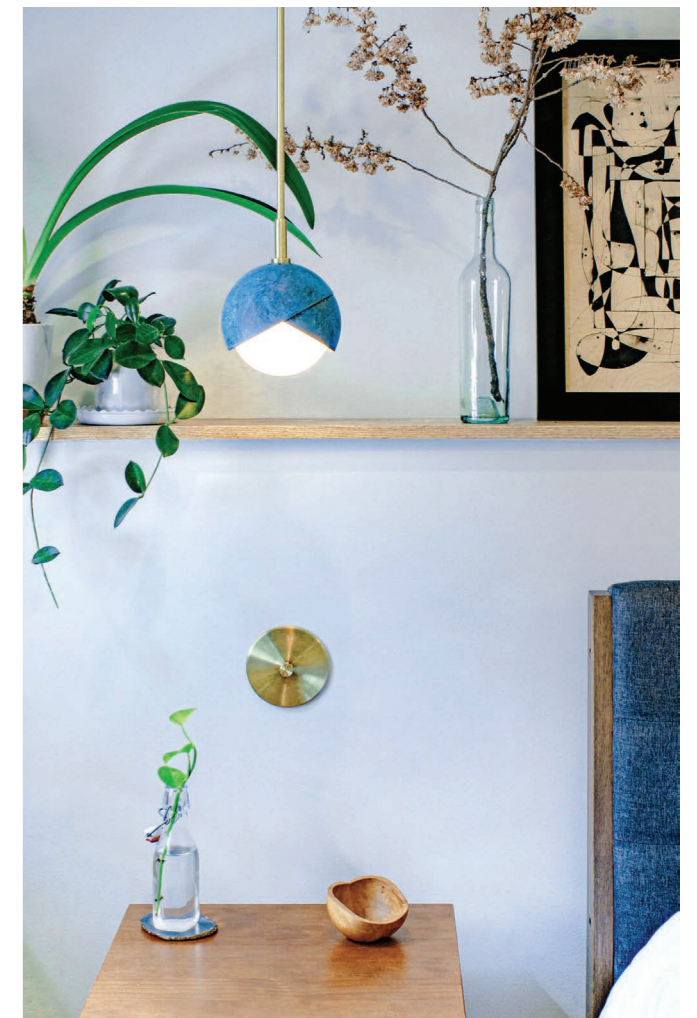

Certifications:

UL Certification available on request, 240V/CE Certification available on request

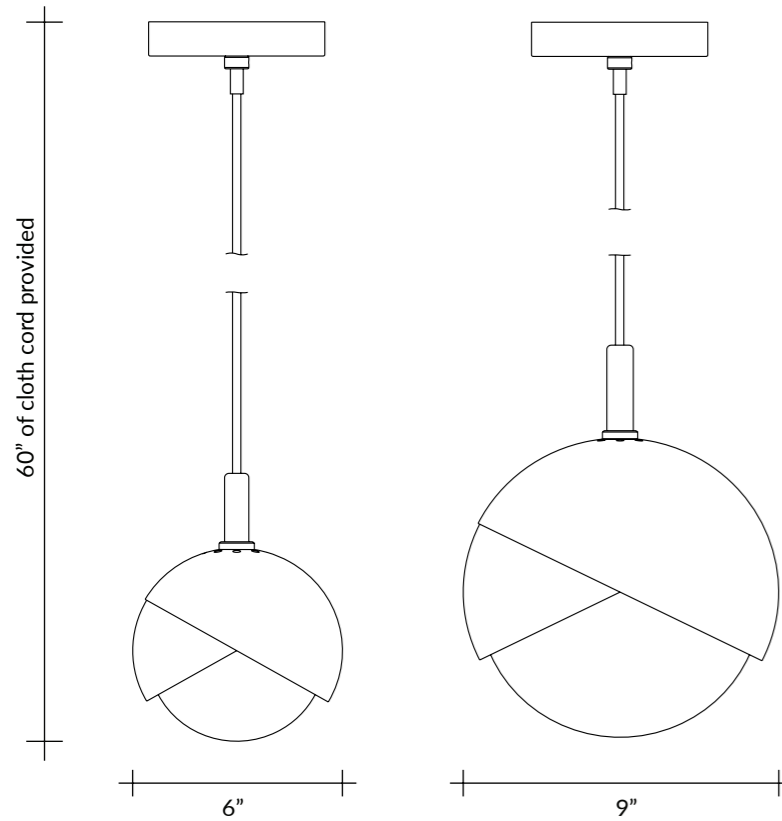

Trella's Signature Prussian Blue:

Trella's signature Prussian Blue patina was developed in Trella's Brooklyn workshop in 2017 and has since been applied to a wide range of products in our collection. This specialty finish is one that develops its color, texture, and character through a process that relies on a quick direct application of patina followed by patience and timing. It is a process that once started, cannot be adjusted or altered during its natural development. The custom made patina is applied to raw brass and left to sit for hours as the transformation takes place. At the right moment, the components are then air dried and sealed with a clear lacquer to capture the desired color once it has been reached.

Benedict Pendant:

COLOR Series

Starting-at retail: \$975

The Benedict™ COLOR series styles our most versatile pendant in a wide range of colorful configurations, both bright and subdued, sure to fit the mood of any project. Like all Trella™ products, our hand made fixtures are highly customizable, and ready to match your vision.

Custom colors:

Custom colors (RAL) available by request

Lamping:

Provided Bulb: (1) 5W Candelabra LED bulb, No transformer required, 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt

Benedict Swag:

Priced based on number of pendants and finishes

The Benedict™ Swag modular system allows for limitless configurations of our Benedict™ light assemblies. This results in a piece which perfectly complements the footprint and arrangement of the furniture and space under its soft glow. Each light assembly hangs from a seamless ceiling detail, and with plenty of cloth wrapped cord provided encourages artful swooping line-work to your liking. Our modular package is available anywhere from one light assembly to ten and in any configuration in our wide range of finishes.

Lamping:

Provided Bulbs: 5W Candelabra LED bulb, No transformer required, 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt

Hanging:

All electrical is supplied through the center canopy. Ceiling mounts for pendants are provided along with a metal tube to hide this connection. All heights and hanging locations can be adjusted during installation.

Certifications:

UL Certification available on request, 240V/CE Certification available on request

Benedict Chandelier:

Five light starting-at retail: \$3,625

Seven light starting at-retail: \$5,125

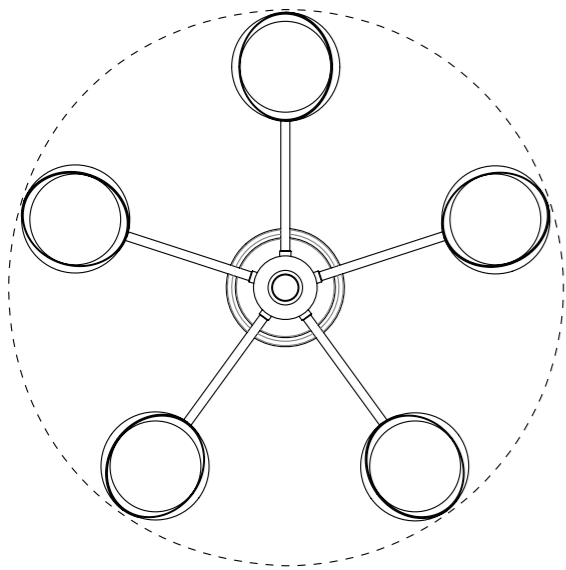

The Benedict™ Chandelier showcases a circular array of 6 inch Benedict™ light assemblies in grand fashion. Its modular design allows for a variety of configurations from 3 light to 10 light. Available in a variety of powder coat colors and metal finishes.

Lamping:

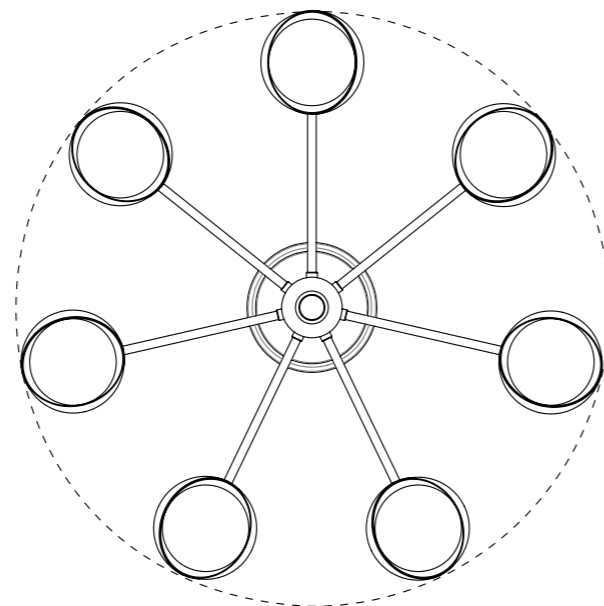

Provided Bulbs: 5W Candelabra LED bulb, No transformer required, 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt

Certifications:

UL Certification available on request, 240V/CE Certification available on request

34.5"

36"

Benedict Linear Chandelier:

Starting-at retail: \$5,625

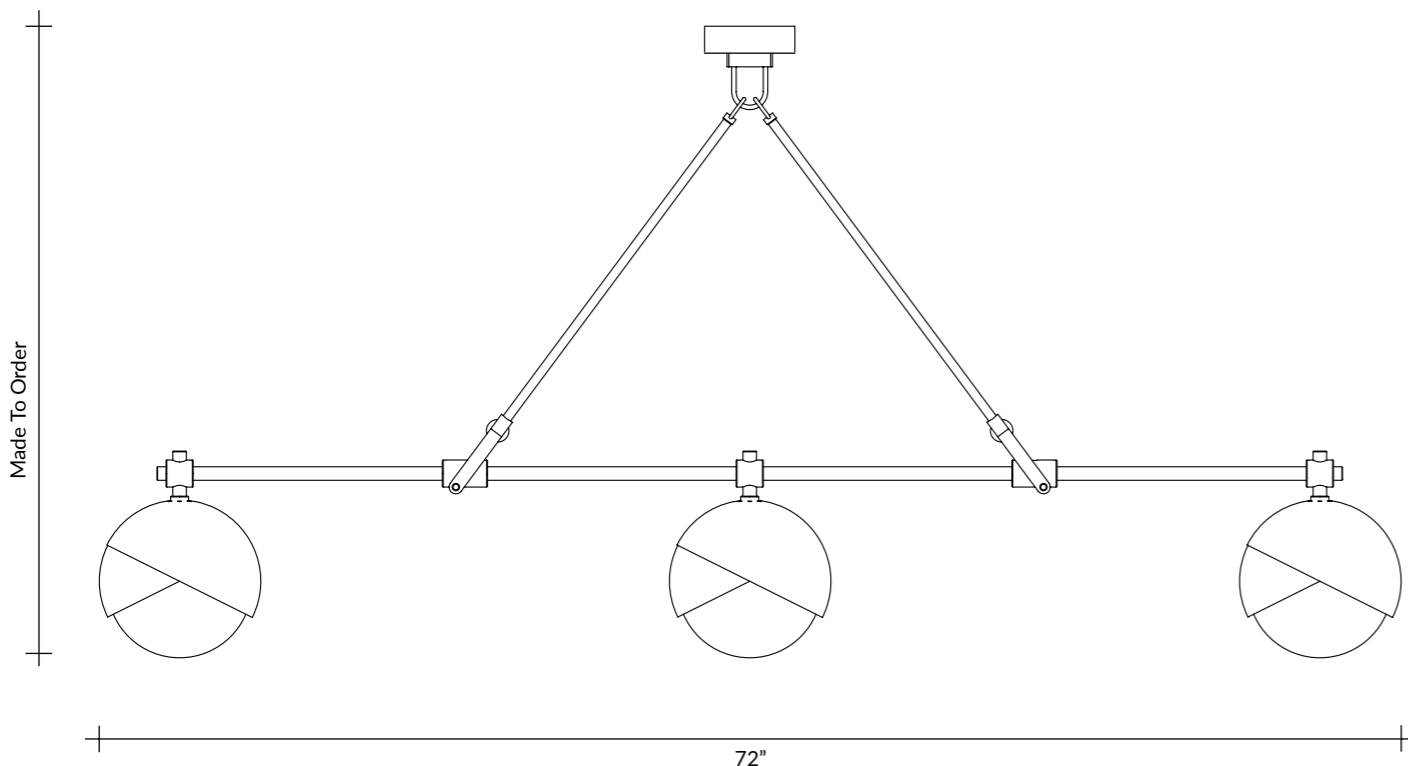

Three 9 inch Benedict™ light assemblies form a linear array held together with finely detailed joinery. Available in any height, this chandelier is an inviting centerpiece for any kitchen island, dining table, conference table, or artists' studio table.

Lamping:

Provided Bulbs: (3) 5W Candelabra LED bulbs, No transformer required, 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt.

Certifications:

UL Certification available on request, 240V/CE Certification available on request

Benedict Three Light Lantern:

Starting-at retail: \$2,250

The Benedict™ Three Light Lantern arranges three 6 inch Benedict™ light assemblies in a condensed bloom perfect for entry ways, stair wells, and other transitional spaces.

Lamping:

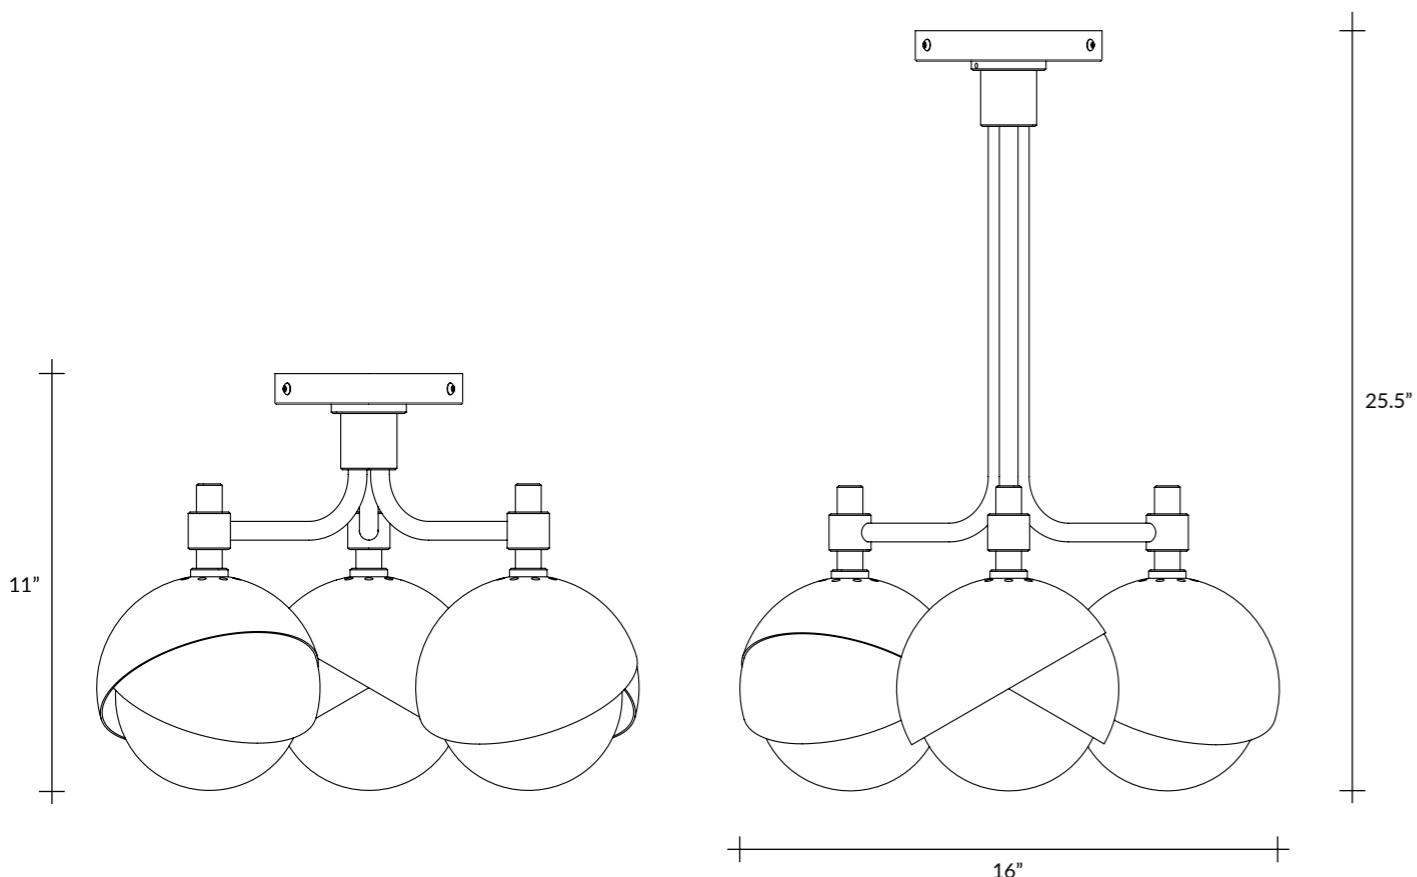

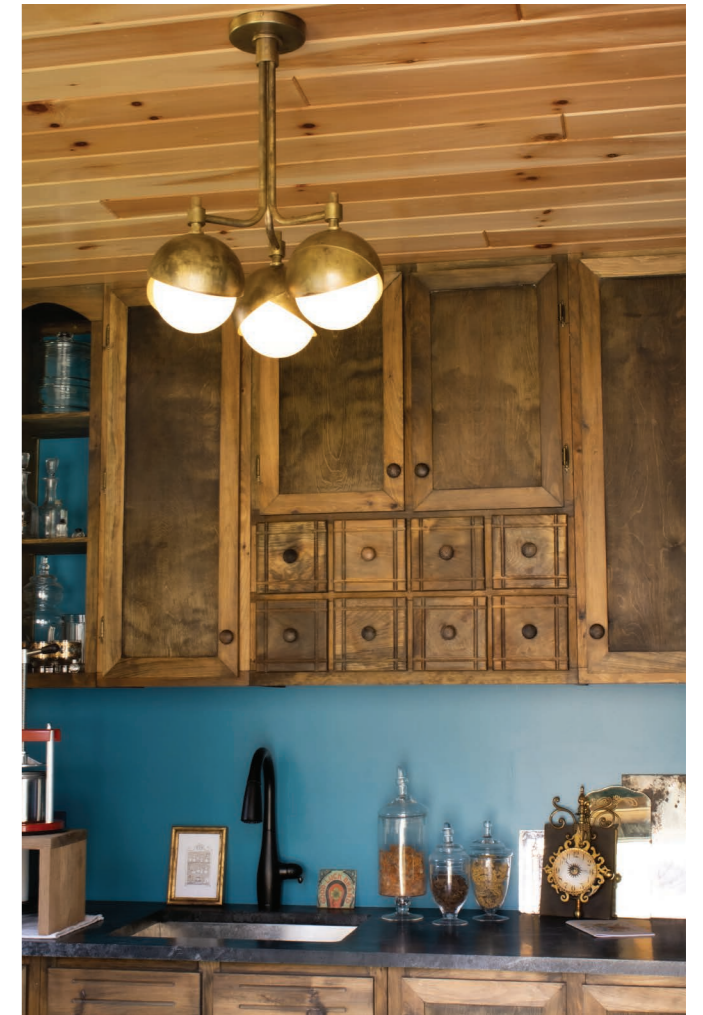

Provided Bulbs: (3) 5W Candelabra LED bulb, No transformer required, 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt

Hanging:

Available in two standard drop heights. 11" and 25.5". Custom drop heights available upon request.

Certifications:

UL Certification available on request, 240V/
CE Certification available on request.

Benedict Two Light Chandelier:

Starting-at retail: \$2,750

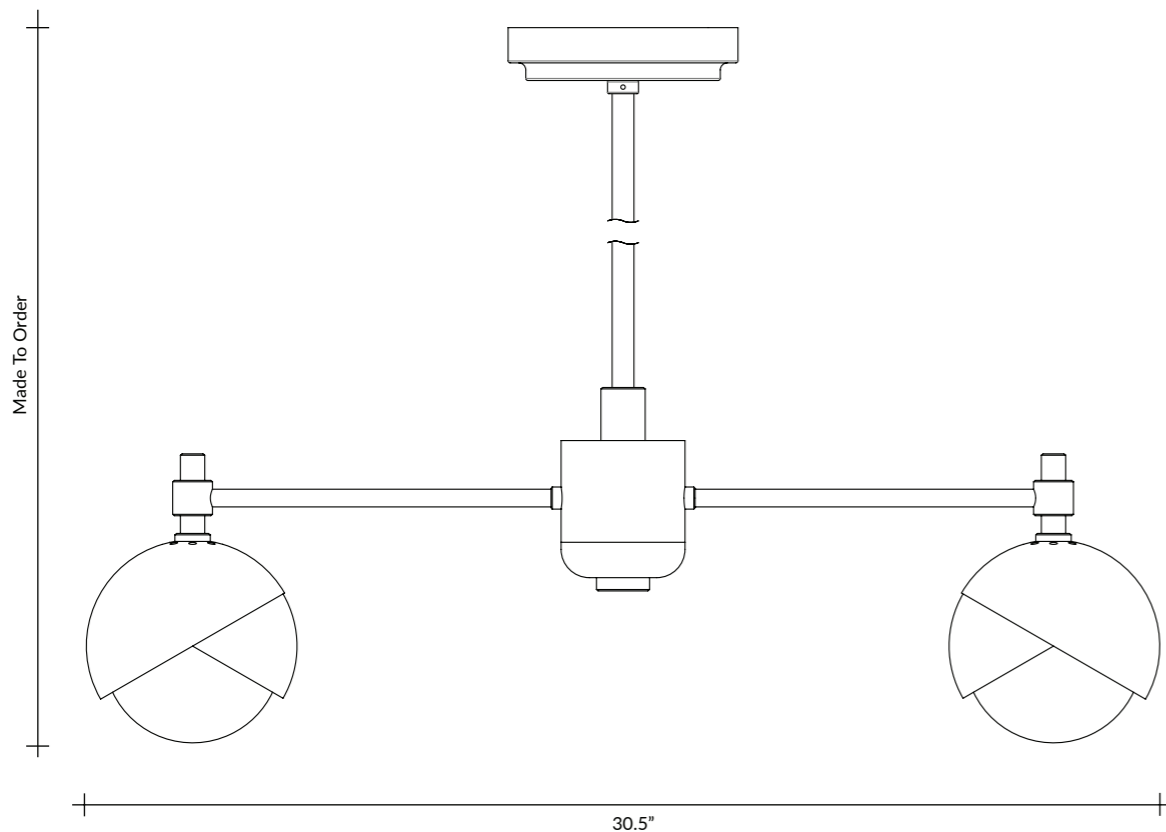

The Benedict™ Two Light Chandelier suspends two Benedict™ light assemblies from a sophisticated armature of brass joinery. This thin profile chandelier is perfect for workspaces, kitchen islands, wet bars, or in any compact dining space.

Lamping:

Provided Bulbs: (2) 5W Candelabra LED bulb, No transformer required, 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt

Certifications:

UL Certification available on request, 240V/CE Certification available on request

Benedict Two Light Cluster:

Starting-at retail: \$2,350

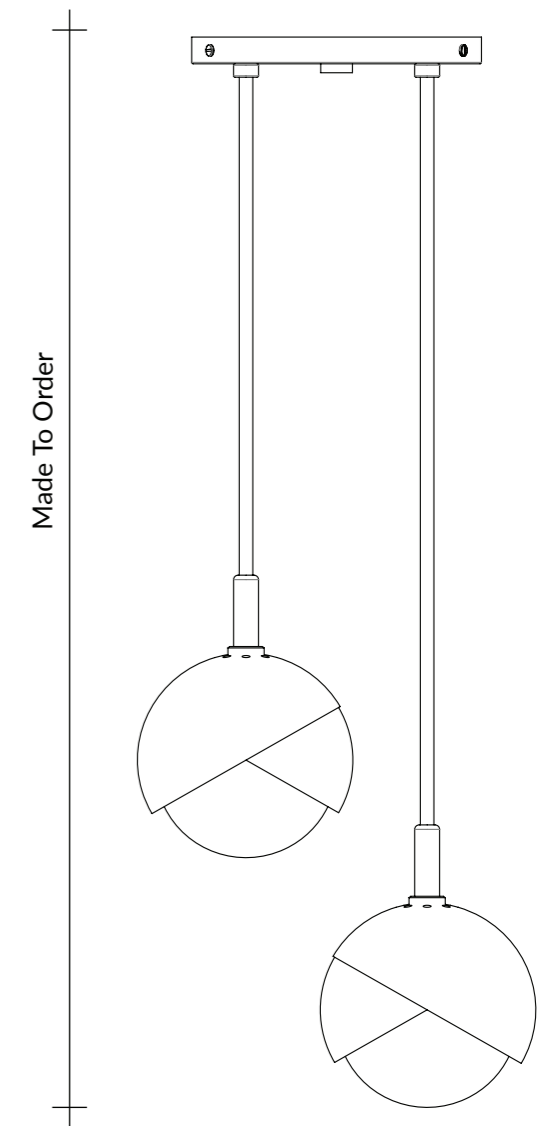

The Benedict™ two light Cluster is a playful arrangement of the already versatile Benedict™ Pendant. Drop lengths are made to order to fit any project's needs. Shown here in Prussian Blue with Blackened and Satin Brass Details.

Lamping:

Provided Bulbs: (2) 5W Candelabra LED bulb, no transformer required. 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt.

Certifications:

UL Certification available on request, 240V/CE Certification available on request

Benedict Bloom:

Five light starting-at retail: \$5,125

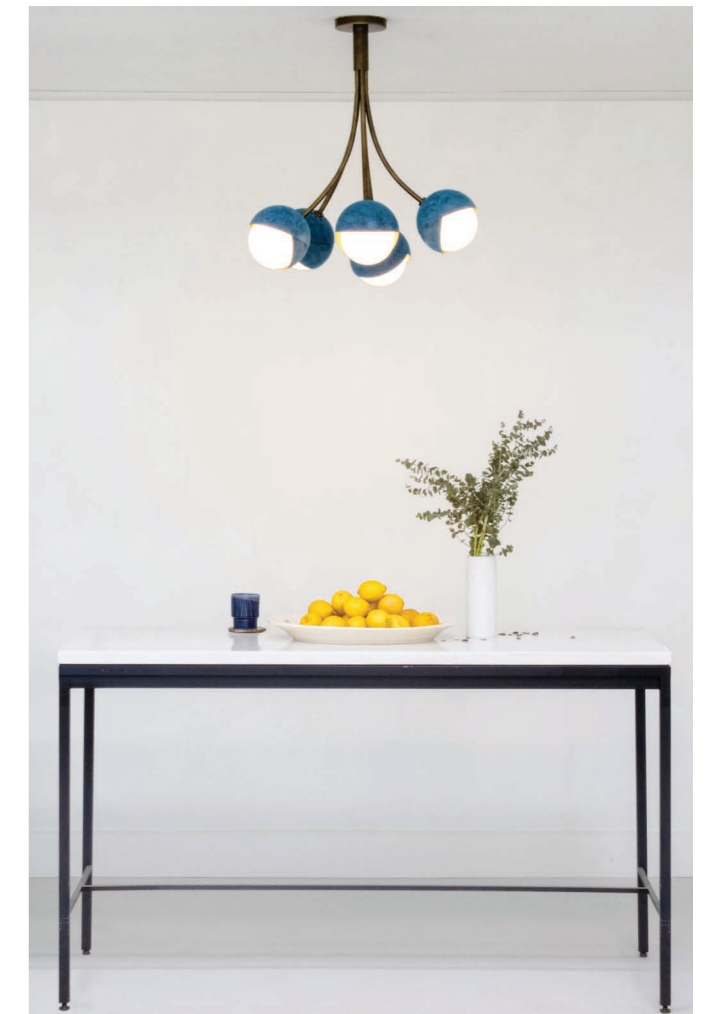

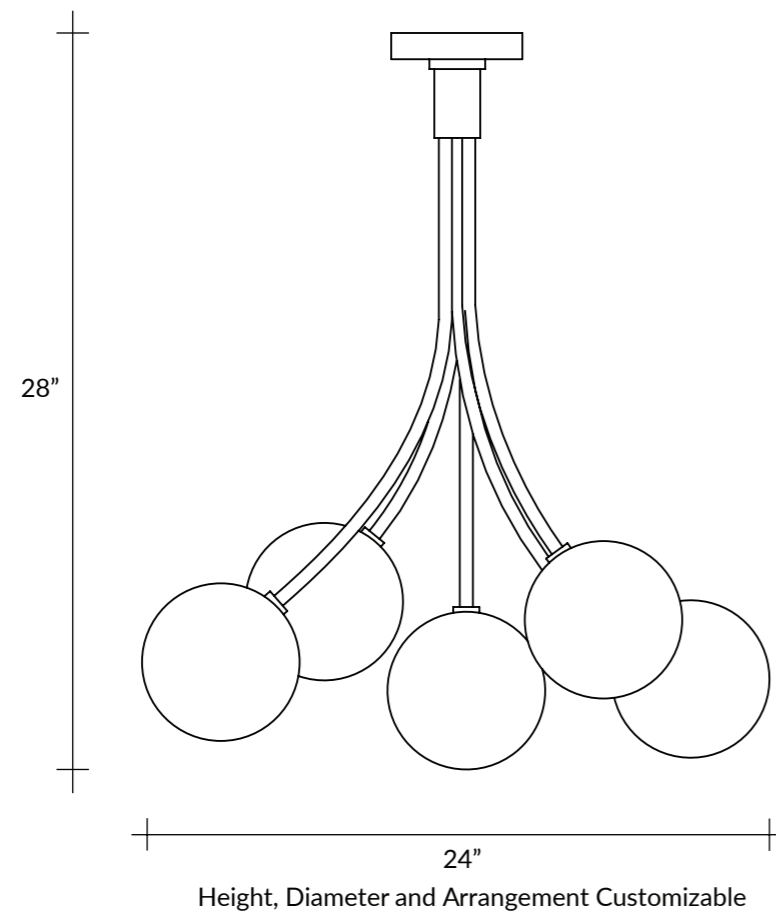

The Benedict™ Bloom suspends five pairs of nested brass hemispheres and white opal glass in an organic cluster held by hand rolled brass stems. Available in all Trella finishes, the Benedict™ Bloom chandelier is able to make a playful yet elegant statement. In addition to a number of available arrangements, its made to order production also allows for endless custom configurations on request.

Lamping:

Provided Bulbs: (5) 5W Candelabra LED bulb, No transformer required, 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt

Certifications:

UL Certification available on request, 240V/CE Certification available on request

Provided Bulbs- (2) 5W E-26 LED Tubular T9 Bulbs , 2700K Color Temperature , 450 Lumens. Total fixture Lumens = 2,700 Dimmable - 120 Volt

Certifications:

UL Certification available on request, 240V/CE Certification available on request

Klein Pendant:

11" dia. starting-at retail: \$1,840
24" dia. starting-at retail: \$5,650

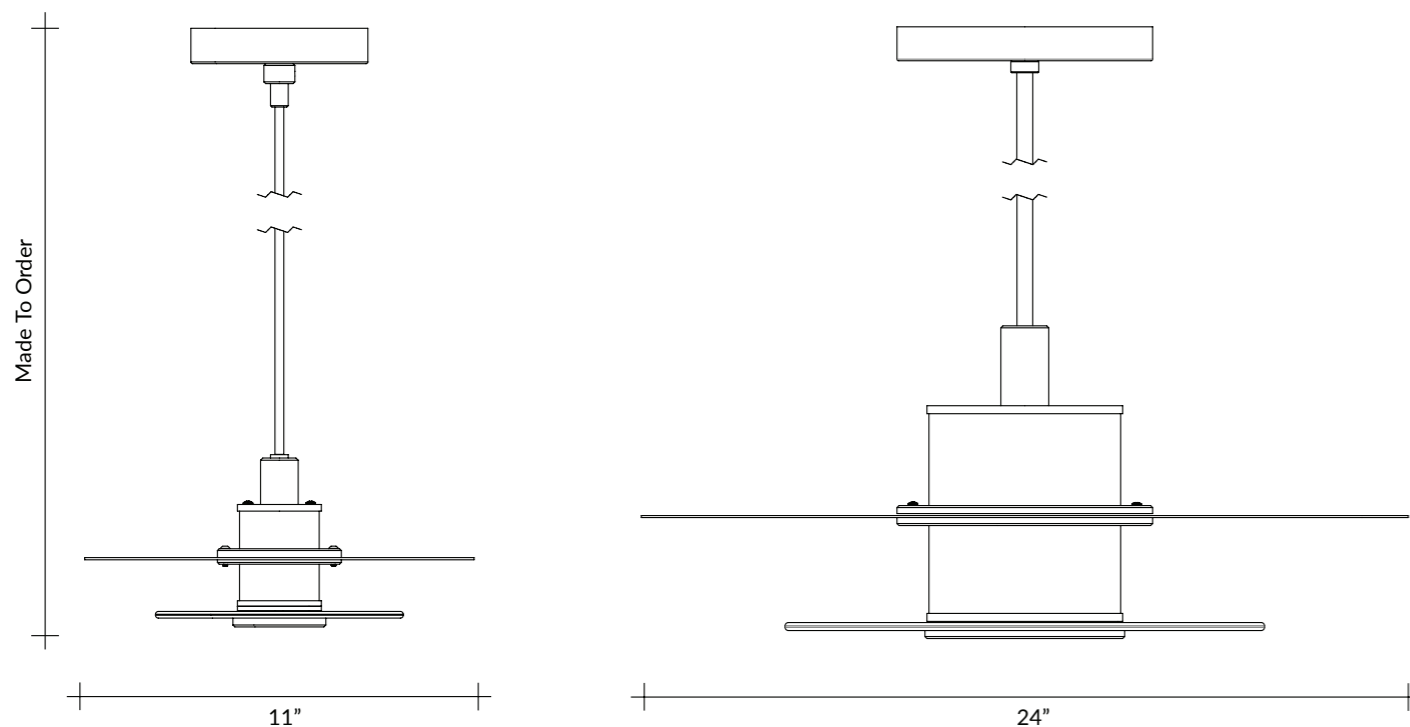

The Klein Pendant embraces a layered light assembly comprising a hand blown glass rondelle and an etched and bur-nished brass disc. Mounted to a central white light tube, the Klein Pendant of-fers ample up lighting as well as a soft and warm down light. Colored glass op-tions combined with multiple available finishes allows the Klein Pendant to be customized in a variety of combinations.

Lamping:

(1) 6.5W 2-Pin G9 Base LED bulb, 2700K Color Temperature, No trans-former required for 11" . Transformer prvided in cannopy for 24".

Certifications:

UL Certification available on request,
240V/CE Certification available on re-quest

Klein Sconce:

Starting-at retail: \$1,840

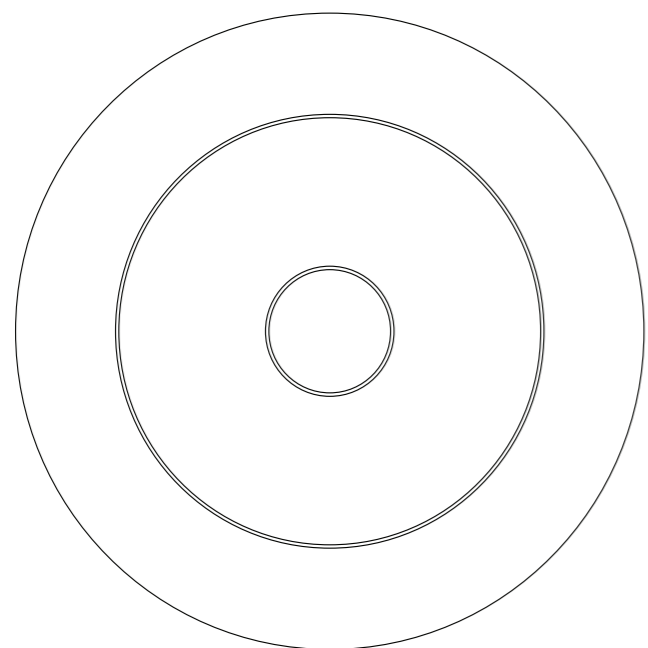

Our wall mounted Klein Sconce offers an atmospheric glow softened by a hand blown glass rondelle in the front while still giving off ample back lighting. With multiple brass textures and finishes available, the Klein Sconce can be customized in a variety of stunning styles to fit any environment.

Lamping:

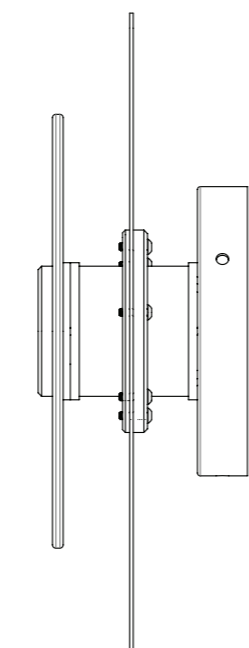

Provided Bulb: (1) 6.5W 2-Pin G9 Base LED bulb, 2700K Color Temperature, No transformer required. 700 Lumens (70 Watt equiv.), 15,000 Hrs., Dimmable - 120 volt

Certifications:

UL Certification available on request. 240V/CE Certification available on request

11"

4"

Three Tiered Arthur:

Starting-at retail: \$3,000

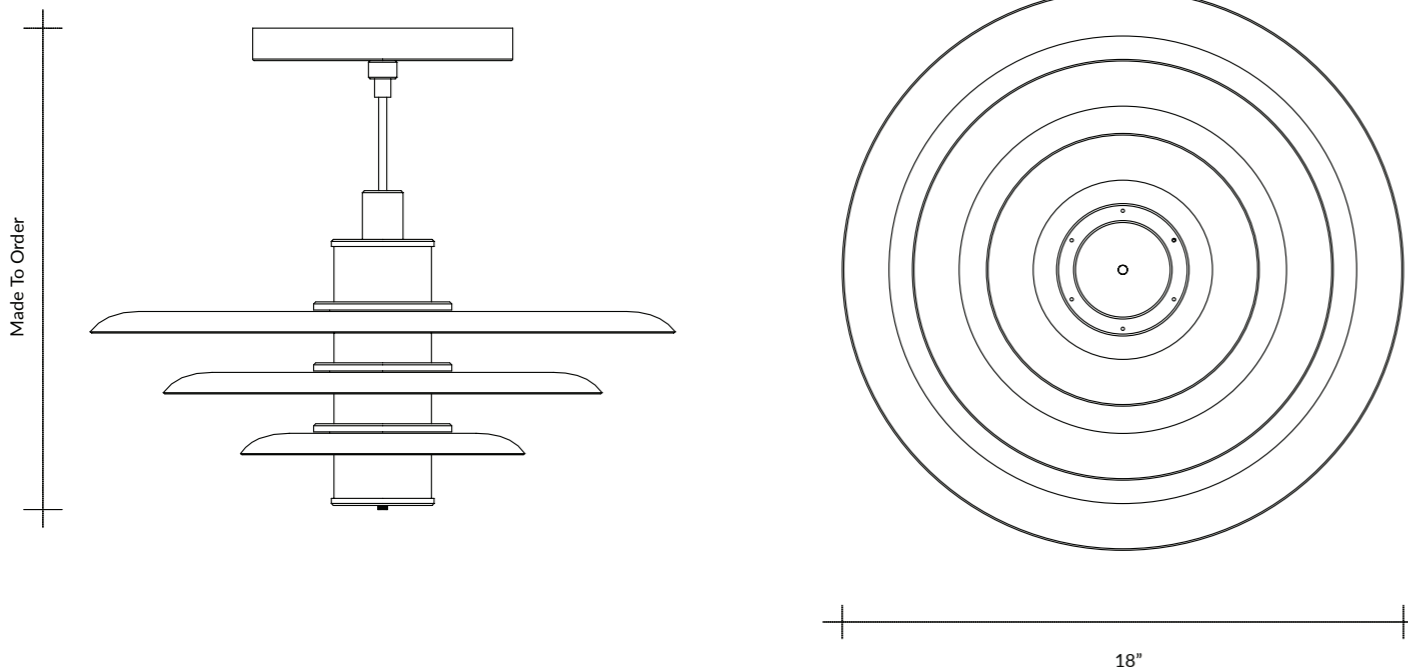

The three tiered Arthur Pendant embraces Trella's Prussian Blue patina in grand fashion. An internally lit white glass cylinder illuminates the depth of our various finishes while simultaneously providing a soft accent light. The three tiered Arthur Pendant is made to order giving clients the option to customize the number of tiers and finish configurations.

Lamping:

Internal LED custom light tube that provides 1,200 lumens at 2,700k. Transformer that is mounted inside canopy.

Certifications:

UL Certification available on request, 240V/CE Certification available on request

Arthur Pendant:

Starting-at retail: \$2,615

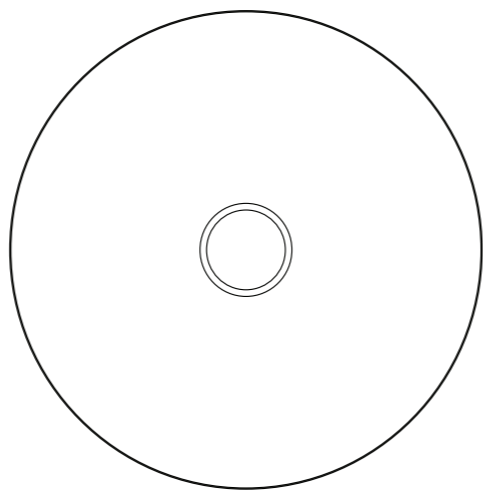

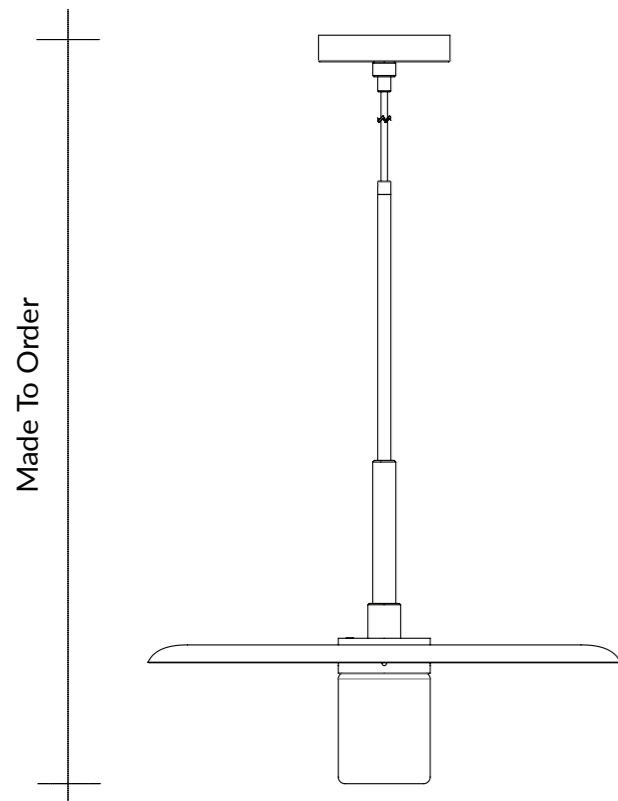

The Arthur Pendant's spun shade is the playing field for several unique hand applied textured reliefs or colored powder-coats. A hand blown glass cylinder shines light on the powder-coated shade. This versatile pendant can function as a solo attraction hanging above a small cocktail table or in a reading nook, but can also make a statement in a linear series of three above a kitchen island or dining table.

Lamping:

Provided: (1) 5W Candelabra LED bulb, 2700K Color Temperature, 700 Lumens (60W equivalent), Dimmable - 120 Volt

Certifications:

UL Certification available on request, 240V/CE Certification available on request

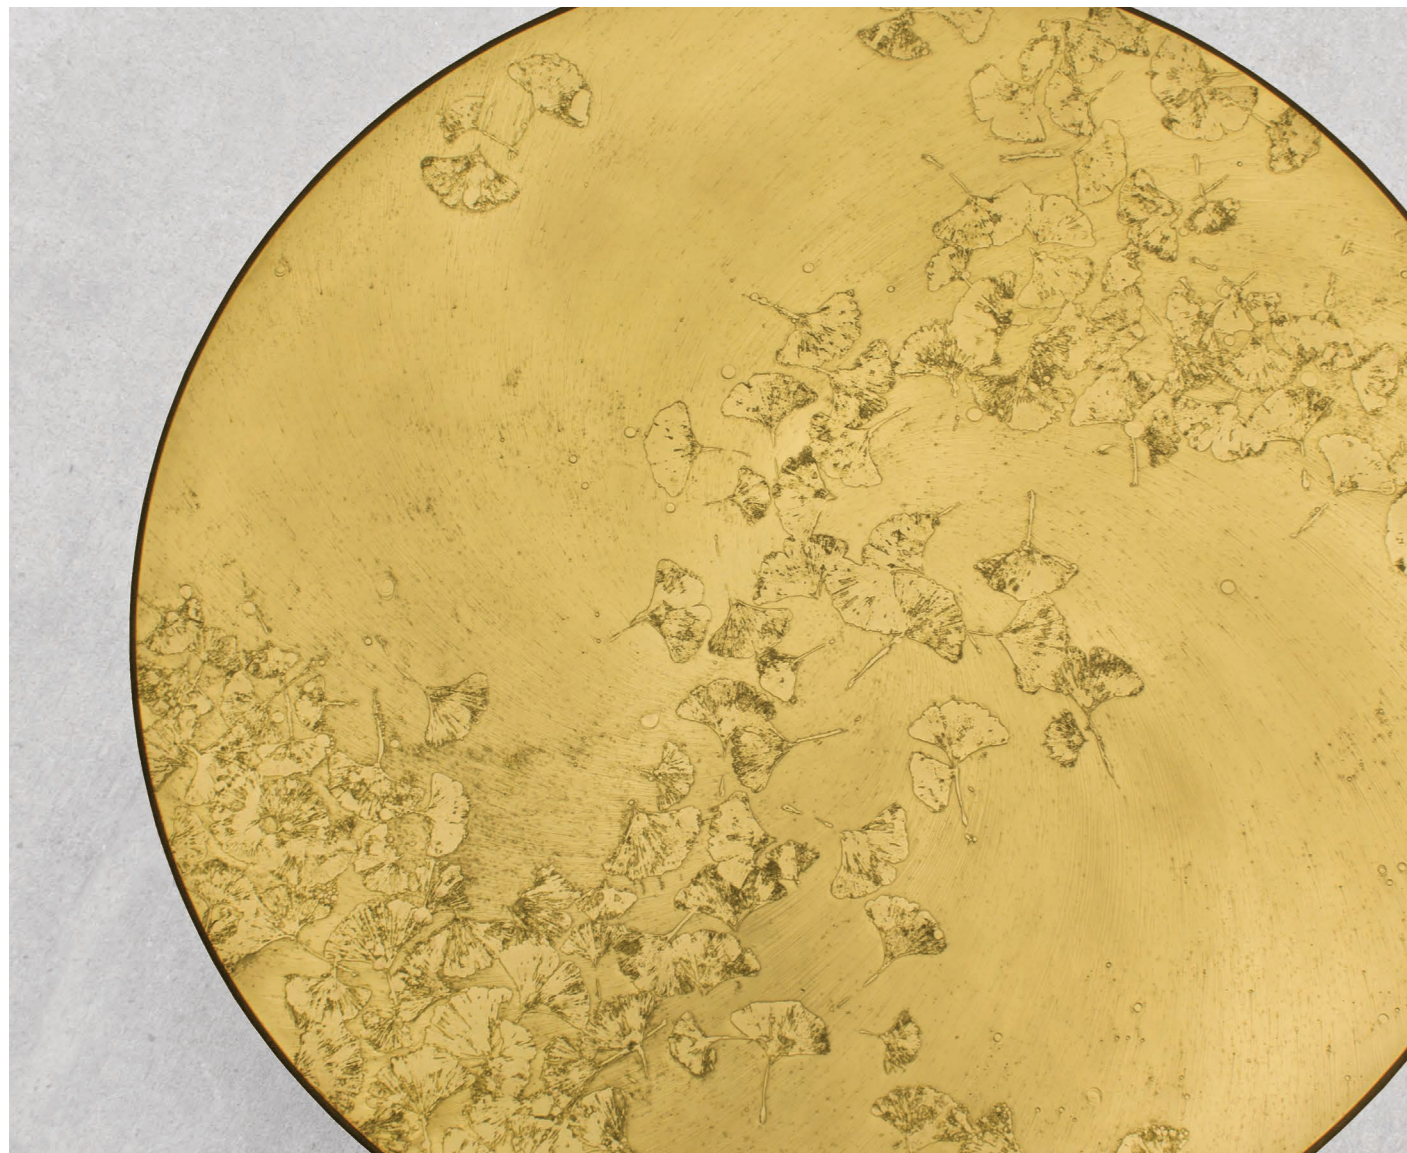

Ambrose Table:

Starting at retail: \$19,600

Every Ambrose table is truly one of a kind. Our team of artisan's compose every unique surface pattern by hand stamping ginkgo leaves on the table's surface. The surface is then acid etched to create the Ambrose cocktail tables of bas-relief. Shown here in Burnished Brass sealed with an automotive clear lacquer.

Dimensions:
14" tall, Diameter made to order.

Jackson Mirror:

Starting-at retail: \$7,800

The Jackson Mirror is an adaptable, made to order mirror showcasing Trella's etched brass artisanship. Individual brass tiles are etched, finished, cut to size and inlayed into a brass frame. This fully artisan process leads to a one of a kind motif embellishing the mirror's borders.

The Jackson Mirror is available in the Ginkgo and Sunburst etch patterns and various hand applied metal patinas. Shown here in highlighted blackened brass with a blackened brass frame.

Dimensions:
Made to Order, Shown here at 24" wide x 42" tall x 2" deep
